Planning P cycle is a simplified way of talking about what we do in terms of response.

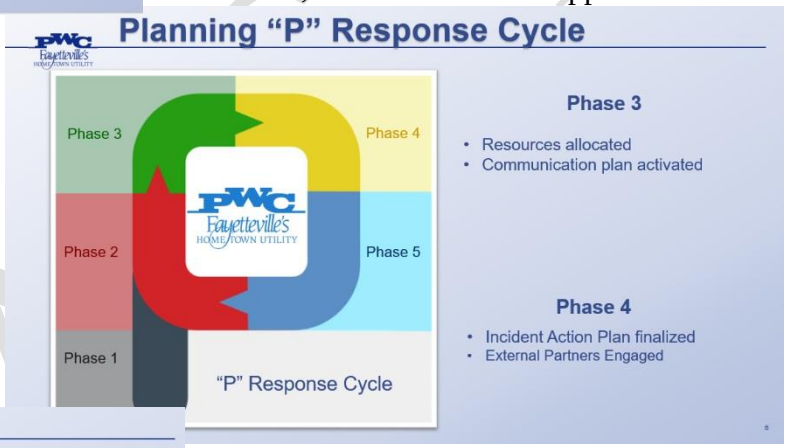

In all phases there are specific duties we are assigned and there are checklists to keep us on target.

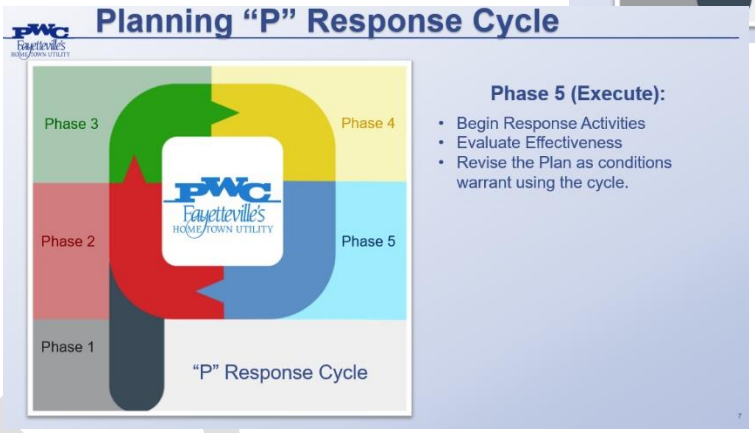

In Phase 1 we know there is something happening (like now, a hurricane is out there). We determine the potential impact on PWC if any. We will have an incident briefing, which may be as simple as several of the leaders having a conversation.

In Phase 2, we have determined it is probable something will happen that affects PWC.

In Phase 3, we know it will happen and we begin to allocate resources to address the issues. We will begin to cut on the programs we have. We have food and lodging programs for our staff and contractors.

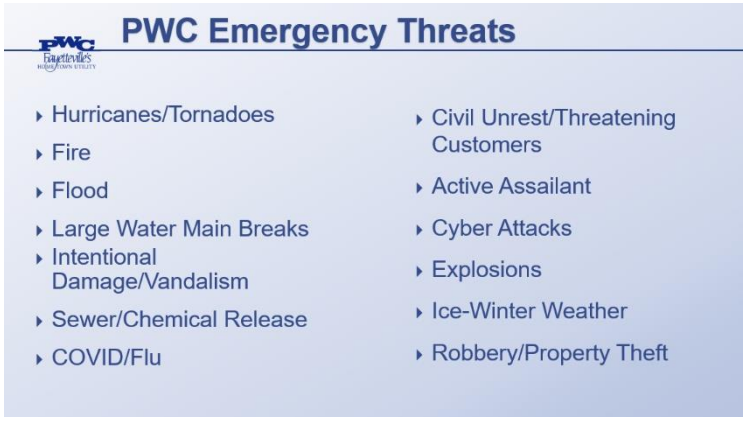

The incident action plan is finalized in Phase 4. We make final decisions. We also begin to contact our partners and send representatives to the County and City EOC. We stay in contact with the State EOC. We also reach out to FEMA and our insurance company. We will reach out to our mutual aid partners as well.

In Phase 5, we execute. We begin response activities and evaluate our effectiveness. We will revise as needed.

This list is refreshed annually. . It is not exhaustive. It is the basis for our training program. Every employee at PWC receives an annual emergency management training class. Those on the Incident Command Structure List receive training more often, likely 4-times a year. Training also includes table-top events.

Mr. Copeland rehearsed the historical events that PWC as encountered.

Safety

Mr. Bryant stated our team continues to work safely. He expressed his appreciation to the entire team for keeping their safety, their team members and our community in the forefront of their minds in everything we do.

Tropical Storm Helene

We are keeping an eye on the storm. The winds are not expected to impact our territory. We are preparing for the expected rain that can cause some localized issues

We have responded to a request for mutual aid by sending two crews to Florida. The guys are getting on the road today to respond to the mutual aid request. The responsiveness to mutual aid goes both ways. When they are in the fray, we support their request. When it is our turn, we can place our request from mutual aid supporting members. These mutual aid opportunities are opportunities for our employees to see how the rest of the world does it and bring those best practices back to PWC.

People

Mr. Bryant stated he is so immensely proud of our team members. Each and every one of our employees work diligently everyday to provide outstanding service to our customers.

We will have our PWC Employee golf Tournament at Cypress Lakes this Saturday @ 8:30 am. (weather permitting). We will also do on-curse fundraising to support Alzheimer's.
