Bid Addendum

PWC Number:	PWC2425020
Bid Title :	Inventory – 2025 Galvanized Steel Transmission Pole Contract
Bid Opening Date and Time:	Tuesday, September 17, 2024, 2:00 pm
Addendum Number:	1
Addendum Date:	August 28, 2024
Procurement Advisor:	the Procurement Advisor Procurement@faypwc.com

---

1. Return one properly executed copy of this addendum with bid response or prior to the Bid Opening Date/Time listed above.

2. The solicitation is hereby modified as follows:

   M1. Attachment B: Bid Pricing Form has been updated and replaced with the version attached to this addendum. The quantity of stock number 1220677 is increased from a quantity of 0 to a quantity of 10.

3. Following are questions received about the solicitation and the SME's answers to the questions.

   Q1. While I understand this is for 2025 Inventory & award to begin Nov 1, 2024, do you have any idea on anticipated immediate delivery dates? With our lead times as a factor, I want to make sure if there would be immediate demand, we would be able to meet the need.

   A1. The bid award and resulting contract will primarily be used to replenish the PWC warehouse stock for the poles specified in the IFB, based on estimated quantities derived from past usage. The immediate need upon award is for a quantity of 30 of the 80' S04.9 Poles (1-220-675), which we would like to receive by February 2025 or in the spring of 2025. Additional immediate requirements will be discussed with the successful bidder, considering upcoming projects that are currently in the design phase.

   Q2. What is the delivery schedule for the RFQ?

   A2. The immediate need upon award is for 30 of the 80' S04.9 Poles (1-220-675), which we would like to receive by February 2025 or in the spring of 2025. We request that bidders include their current lead times for each line item in the bid pricing form and provide a proposed production allotment schedule. Please note that PWC will not be purchasing the poles at the estimated quantities listed in the IFB all at once; instead, purchases will be made periodically throughout the contract year.

   Q3. Can you clarify the quantity of stock number 1220677? Is the quantity 0 or 10?

   A3. PWC currently does not have historical usage data for item 1220677. However, the Engineering department anticipates a need for approximately 10 of these poles for upcoming projects. Please refer to Modification 1 on page 1 of the addendum for the updated information in the bid pricing form.

Failure to acknowledge receipt of this addendum may result in rejection of the response.
